

Indi Meets Washington: Activities

1. Indi walks on trails covered in pebbles, baseball sized rocks, and even over boulders. What covers the path you walk on?

2. Marmots shriek along the trail but animals can make other sounds too. What animals do you hear where you live?

3. Indi carries her little red pack on her adventures. If you were out on a hike for the day, what would you bring?

4. Indi's favorite trail snack is a waffle with peanut butter and hot dogs. What treats are special to you after you have a long day playing?

5. Indi's nose led her to sniff flowers and tall grasses. Where does your nose lead you?

6. Sometimes people leave trash on the trail, when Indi finds some she tucks it in her pack. How do you leave places better than you found it?
